

To: Australian Border Force (ABF)

Asylum seekers have been held on Nauru for over four years. When we arrived in Australia, we asked Australia for protection. Only a small number of people were sent to Nauru when we arrived in Christmas Island. People who were with us on the same boats, are now living in the community in Australia.

Border Force policies have separated families; brothers and sisters, parents from children. Some families have been separated after they were sent to Nauru. Fathers and mothers are separated from their children.

Until now, only 27 people have been resettled in the United States. We have asked many times but there are no answers about how many people will be taken to the USA and when they will be taken.

It is now four weeks since the first people left Nauru to go to the United States. But none is telling us when the next people will go.

We have no answers about what will happen to our future. Our lives are in limbo.

We are getting more helpless and hopeless. More people are becoming mentally sick. More people are self-harming from despair.

At the same time, there are less services for refugees on Nauru. Our children are losing their education and hopes for the future.

We cannot wait any longer. We are tired. We are separated from loved ones. We cannot build a secure life.

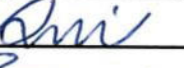

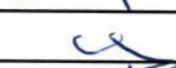

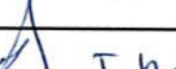

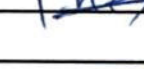

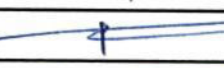

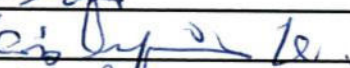

New Zealand has said many times that it is willing to take refugees from Nauru. Many of us have families in Australia and other countries.

We demand (i) provides us with full information about the US deal, and when the next group of people will go to the US;

(ii) That the Australian government immediately takes us from Nauru to Australia and New Zealand. Our applications for the US can be progressed while we wait there;

(iii) Re-unites all the families that have been separated by Border Force and offshore processing policies.
